Office work

- Signed CCO Memo for CCO 143 and 128.
- Conducted informal end of job review with CT Structural Maintenance and Design . Comments were generated and will be circulated and addressed. See Jonathan Yeo's daily diary for detail. Jaime Gutierrez, OTD Design Engineer cut his finger trying to open a manhole cover with the wrong tool. I asked him wait until we get the right tool for this. He continued his efforts and gets himself hurt. Ernie Schultz, Safety Engineer, applied first aid immediately and Jaime seemed to be OK. Ernie provided Jaime a copy of Form PMS-0066, Report of Minor Injury, to fill out for records. This occurred early in our inspection and the informal walkthrough with Structures Maintenance continued following that. There was no major or immediate concern from the team except that we might want to install ladders inside the manhole for access. Jaime mentioned this was brought up during design and both maintenance and structures maintenance didn't think it was needed. We may have to revisit this issue later.
- Received an email from Andy Alvarado suggesting language to reject DRB's determination for NOPC #10, 1% sales tax increase. Forwarded to Jeff to draft letter.
- Jim Gallego not in today.
